

# The Business Flow System™

Your business is only as strong as the foundations upon it is built.  
Build and adapt your management model to achieve massive success, freedom and flow using the  
Business Flow System™

Title of Role	How many are on your team?	Names of team members
 CEO/Director/Owner		
 Manager/Business operations officer		
 Practitioner		
 Front of staff/success team		

## The Shape of Your Business

Now that you know exactly what seats you have filled on your team, create your dream management model that will drive your success.

Use the shapes above to map out your **Business Flow System™**

As a general guide, a meeting ratio of one manager to four front of staff or practitioners works well for one meeting.

So, a manager can manage up to 20 staff confidently using this format and diarising their meeting time accordingly.

Choose the shape that works best for your current needs and adapt as you need.

No one shape works for everyone, make it suit you and your needs. Your management model needs to suit you as the business owner.

Only once you're in complete flow can your business achieve success and create true impact.
